Safe Routes To School Plan for MMS and Williams Elementary

Phase 1

Project will be from south side of Dakota Ave to the north side of Oklahoma Ave and will consist of addressing the school crossing to meet ADA requirements, the standing water on the west side of the intersection on Oklahoma Ave, as well removing and replacing sidewalks that are in poor condition to meet ADA requirements. Some driveway approaches along the route will need to be removed and replaced to meet up with sidewalk ADA requirements. All crossings at each intersection will also be replaced to meet ADA requirements. Radar speed limit signs will be added and all school crossing signs will be replaced.

Phase 2

Project will be from the south side of Oklahoma Ave to the school crossing just north of Williams Elementary. This will also consist of removing and replacing sidewalks in poor condition to meet ADA requirements. Some driveway approaches along the route will need to be removed and replaced to meet up with sidewalk ADA requirements. All crossings at each intersection will also be replaced to meet ADA requirements. Radar speed limit signs will be added and all school crossing signs will be replaced.

Phase 3

Project will be from north side of Dakota Ave to the south side of Marshall Ave. This will also consist of removing and replacing sidewalks in poor condition to meet ADA requirements. Some driveway approaches along the route will need to be removed and replaced to meet up with sidewalk ADA requirements. All crossings at each intersection will also be replaced to meet ADA requirements.
